

# Energy production in Europe

TidyTuesday 2020|32

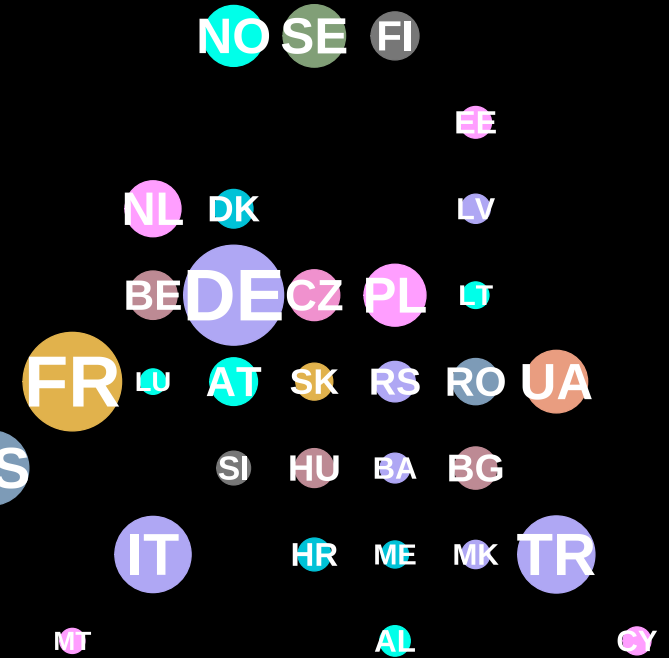

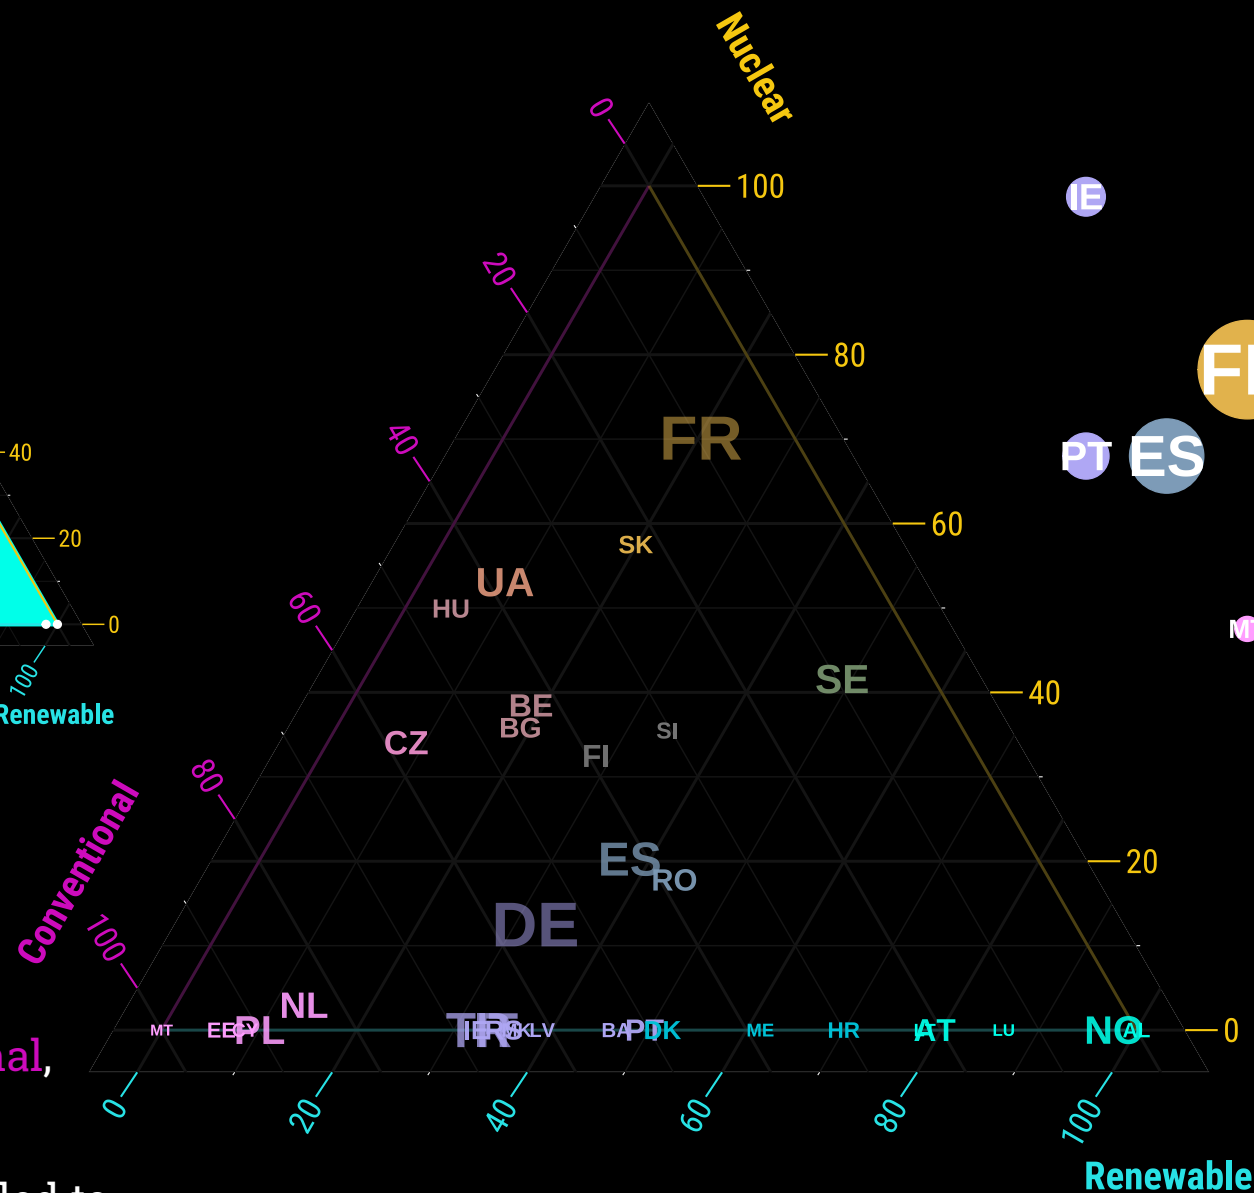

Data: Eurostat Electricity generation statistics, 2018

[bit.ly/30nKrbI](https://bit.ly/30nKrbI)

Each country's energy production is ternary colorcoded to represent the proportions of energy produced using **Conventional**, **Nuclear** power plants, and **Renewable** sources.

The size of the labels is scaled to the total yearly production.

Geofaceted bubble chart.  
Each bubble is scaled to the total yearly energy production of the country. Colors are the same as in the ternary plots.

{tidyverse} {ggtern} {tricolore} {geofacet} {ggdark}
